Karl,  
Beth Craig called me about this yesterday. This looks like it is in the St. Louis area. I know u will be in the area the day before for Westlake but thought I heard u were doing some other stuff too. So you might want to do this. If not, I think john or I can handle... This fits in with the air focus u wanted to do in St. Louis.

Dear Becky,

Here is some background information: Would anyone at your region be available to participate? The *Creve Coeur* community has just reached their green power use goal and qualifies as an EPA Green Power Community (<http://www.epa.gov/greenpower/communities/index.htm>). They're planning an announcement event on June 25 (see the attached flyer) and are interested in having an EPA representative attend to present their Green Power Community road signs (which we'll be shipping to them) and say a few remarks (which my staff is happy to prepare).

Here are the details of the event celebration:

Location: Tappmeyer House in Millennium Park, 2 Barnes West Drive, Creve Coeur, 63141

Date/Time: Tuesday, June 25 from 5 – 7pm.

Details: The president of 3Degrees (the city's green power supplier), Steve McDougal, will be flying in for the event. The previous Mayor, Harold Dielmann, and the current Mayor, Barry Glantz, will be there to accept the honor for the city. This will be a family-friendly event with kids' activities, eco-demonstrations, food and drinks, a DJ, and a docent will be on hand to provide tours of an historic home.

We're not able to send someone from headquarters for the event, but would really appreciate it if the region is able to represent the Agency. One of my staff contacted David Bryan, but has not received a response.

I know this is a long shot – we are calling late , the timing of the event is not optimal and it is not closeby. But if someone could, that would be great! Thanks, Beth
